SUMMARY

Results-driven **Full Stack Laravel & PHP Developer** with **4+ years of professional experience** designing, developing, and maintaining **scalable web applications**. Strong expertise in **Laravel, PHP 8+, Vue.js, React.js, Node.js**, and **RESTful API development** with hands-on experience in **real-time systems**, **database optimization**, and **cloud-ready architecture**. Proven ability to deliver **enterprise-grade solutions** and modernize legacy systems in **Agile/Scrum** environments. UAE resident — **immediately available** for UAE-based opportunities.

PROFESSIONAL EXPERIENCE

Full Stack Developer — October 2025 – May 2026

Carpe Diem (Remote) | Karachi, Pakistan

- Developed and maintained scalable web applications using Laravel, Vue.js, and Node.js
- Implemented Vue.js Composition API and Options API for efficient state management and modular architecture
- Integrated real-time communication using WebSockets and Socket.io
- Designed and documented RESTful APIs to improve cross-team collaboration and maintainability
- Utilized Git and GitHub for version control, pull requests, and structured code reviews
- Ensured application security, performance optimization, and clean code standards

Full Stack Developer — February 2022 – June 2025

The Right Software | Rawalpindi, Pakistan

- Developed enterprise-grade web applications using Laravel, Vue.js, React.js, and Node.js
- Implemented advanced state management using Vuex, Pinia, and Redux
- Optimized databases using MySQL and MongoDB, improving query performance and scalability
- Refactored and modernized legacy codebases, significantly improving application speed and stability
- Reduced frontend load times through performance tuning and optimized API consumption
- Collaborated with cross-functional teams following Agile/Scrum methodologies

Laravel Developer — August 2021 – January 2022

Xeven Solutions | Lahore, Pakistan

- Developed backend services and APIs using Laravel Framework with Eloquent ORM
- Built and integrated RESTful APIs with frontend applications
- Wrote unit and feature tests using PHPUnit and improved API response times with Redis caching
